Attachments: FW: Further Queen Creek TMDL draft comments

Hi Stephen,

Yes, a holistic agenda is forthcoming along with a chloropleth of the graph/basin model map like we tried to do in person the other day.

There were newer emails that you and I crafted to Janet and to Jade together on the 15th after the Pinto call (please see attached) which is more recent although substantively the same.

Thank You,
Matt

Hey Matt,

Would it be possible to flush out a little more of an agenda for this meeting? Unless there's been any other email traffic I missed, I think we're still waiting for Kyle to answer the attached question (which you sent to him more recently). An internal discussion would probably be most productive once we have the relevant info on hand.

Thanks,

Stephen Maurano
